2020, Poonch, J&K

Experience

- **AI-ML Development Intern (Next24tech)** (Jun24 -Aug24)
 - Successfully completed a 2-month internship focused on AI and ML development, contributing to various projects and enhancing skills in machine learning algorithms, data analysis, and model implementation.
 - Gained practical experience in deploying AI models and collaborating with cross-functional teams to deliver impactful solutions.
- **Web Development Intern (International data Solution)** (Feb25 - May25)
 - Collaborating with a cross-functional team to develop and maintain web applications tailored to client requirements.
 - Contributed to live client projects with features such as dynamic forms, authentication systems, and dashboard analytics.

Projects

- **Room Rental website** 
 - Developed a full-stack room rental platform to connect tenants with landlords for streamlined property discovery and booking.
 - Implemented features like property search with filters, booking requests, user authentication, and a landlord dashboard for listing management.
 - Designed a mobile-responsive UI for seamless usage across devices.
- **Catering Website - Fresh Bite** 
 - Developed a responsive website for "Fresh Bite," a platform offering hostel accommodations and premium food services.
 - Designed sections for Fine Dining, Event Catering, Food Delivery, and Mess Facility, showcasing features like live tracking, custom menus, and healthy meal options.
 - Utilized HTML, CSS, and JavaScript, along with AOS (Animate On Scroll) for smooth animations and optimised cross-platform compatibility.

Many More Projects 

Technical Skills

- **Languages:** C++, Python, HTML,CSS, Javascript and SQL, Reacts,Data Structure,PHP, Type script.
- **Tools:** Git, GitHub
- **Courses:** Data Structures and Algorithms, Operating Systems, Database Management Systems,, Computer Networks, Software Engineering, Machine Learning, HTML, CSS, TAILWIND, Linux, Angular(Basic), PHP
